

# SOCKET 939/940 CPU COOLER **USER MANUAL**

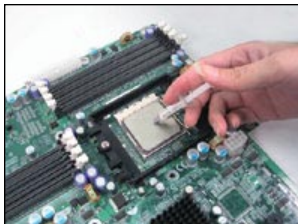

MODEL 702850

BRINGING COMPUTERS TO LIFE

MAN-702850-UM-1006-01

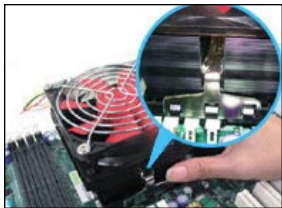

Thank you for purchasing the MANHATTAN® Socket 939/940 CPU Cooler, Model 702850. Follow these six simple steps for quick and easy installation.

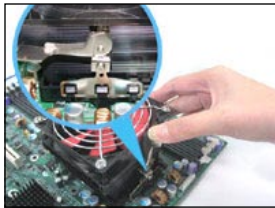

1. Spread the thermal grease on the CPU die.

2. Place the cooler into the retention module.

3. Push the clip down into one side of the retention holder, then (4.) the other.

5. Lock clip in place by gently moving it from left to right.

6. Connect the power to finish the installation.
